

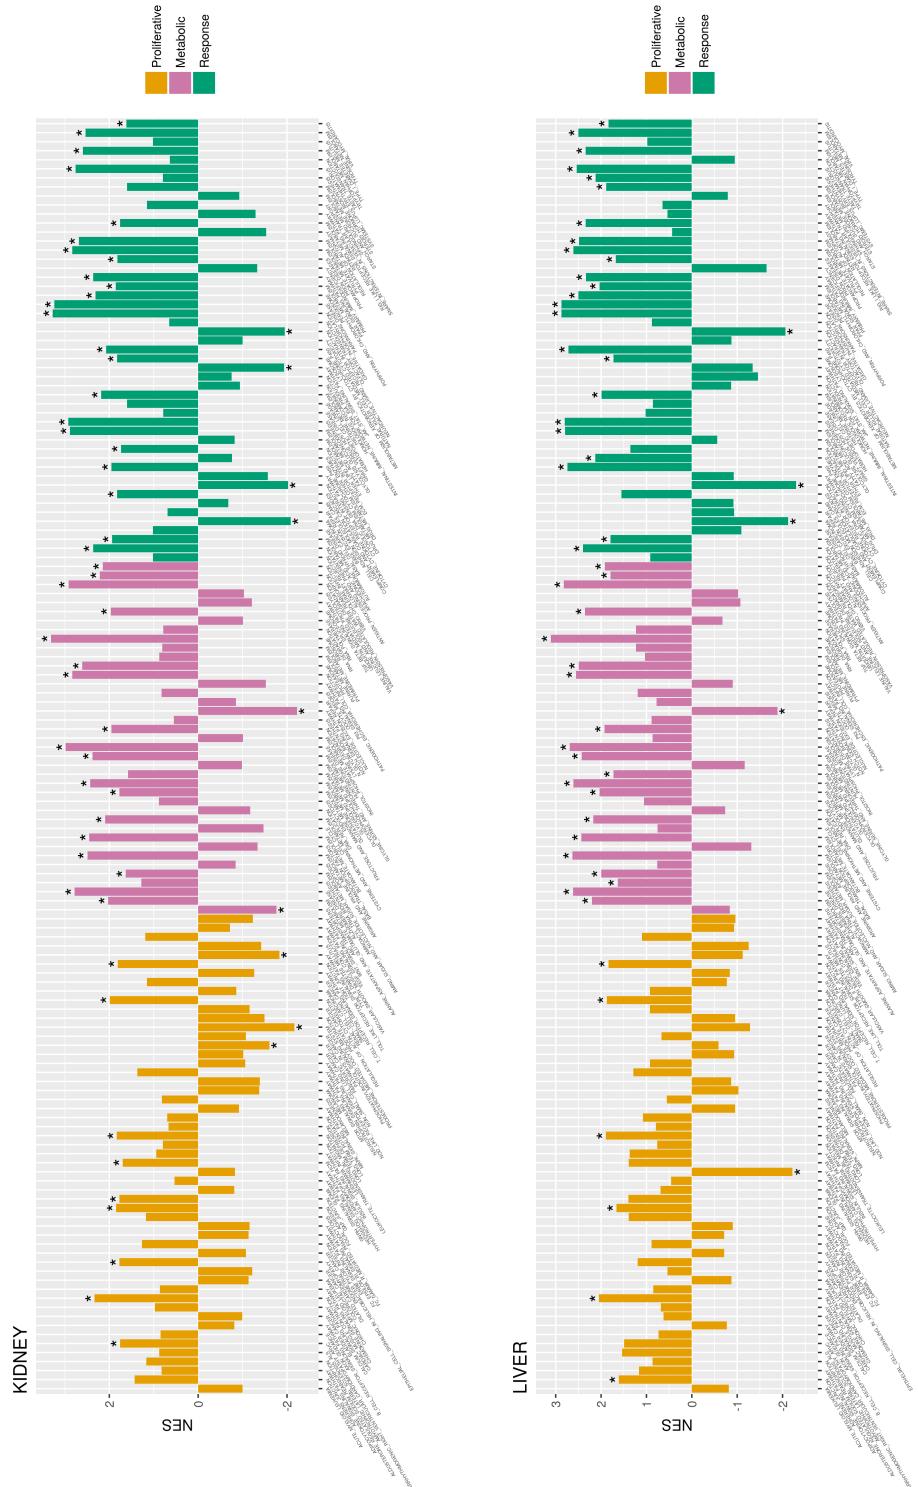

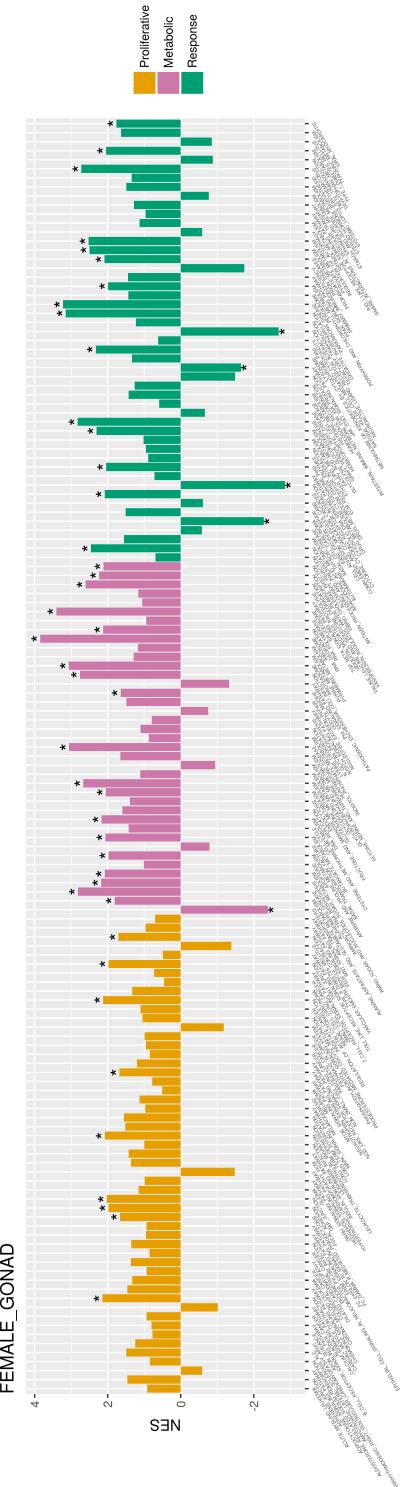

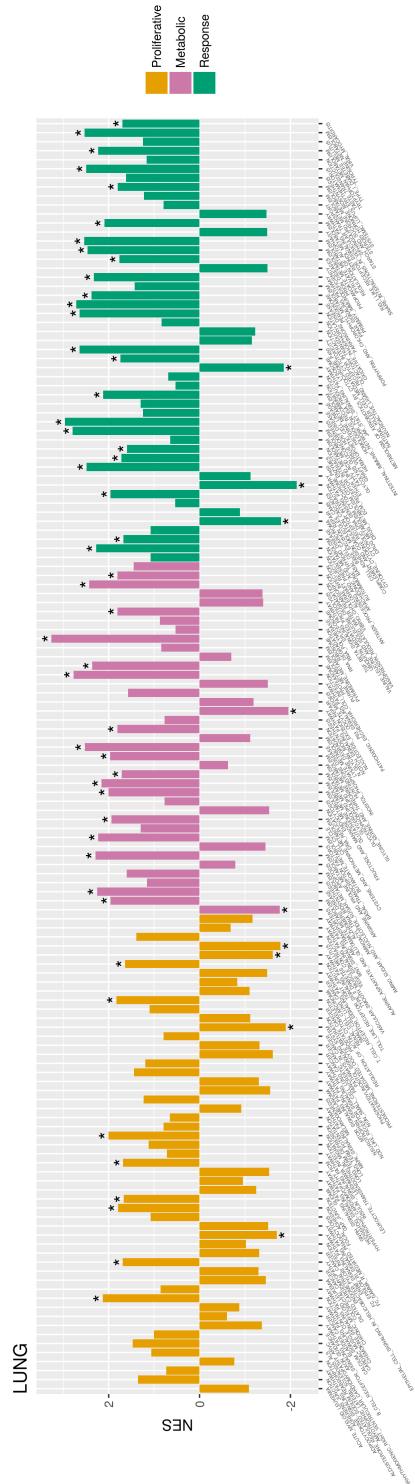

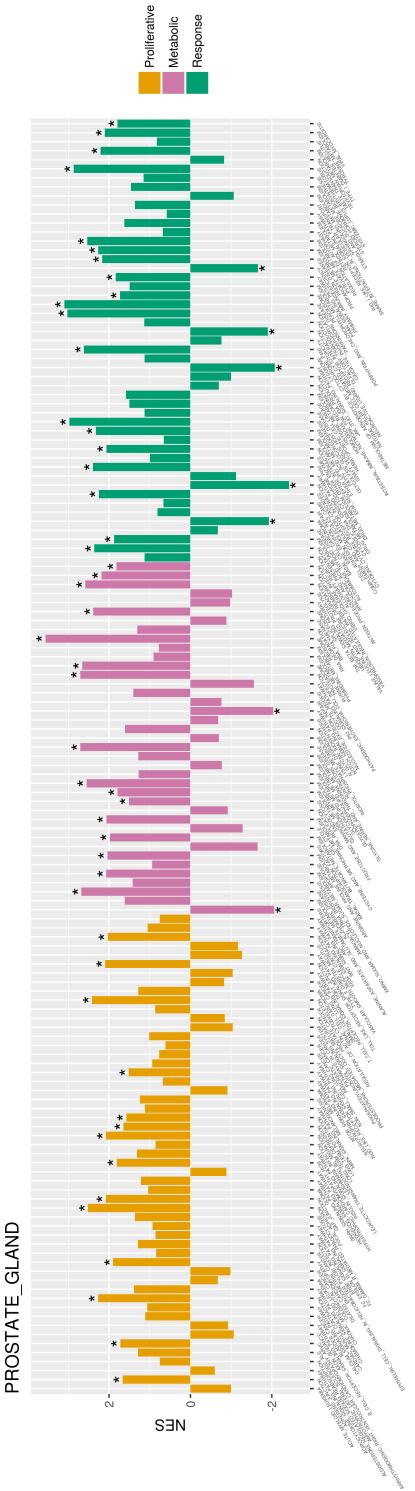

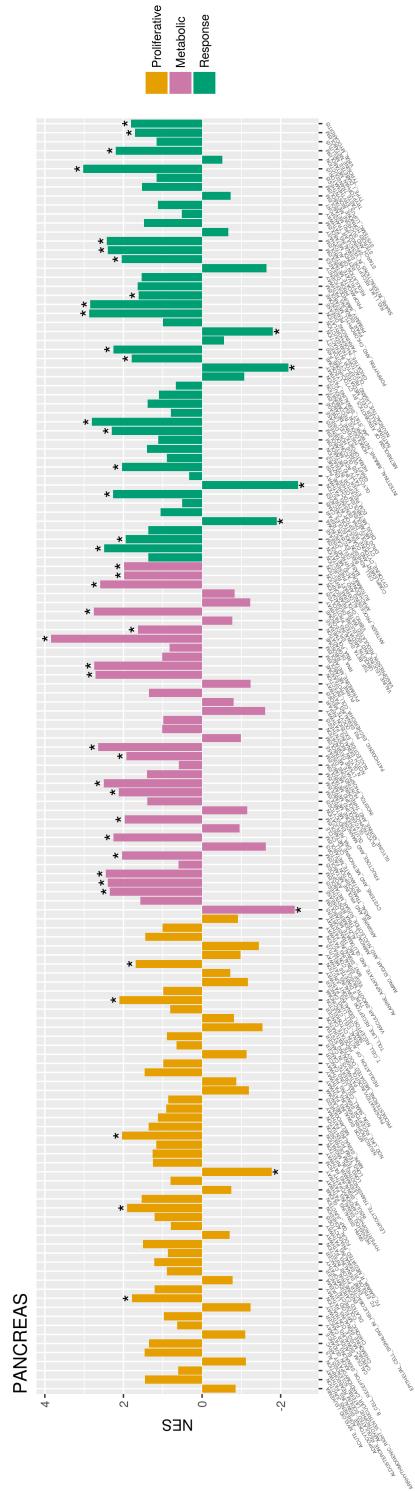

Figure 1: The functional enrichment of proteins in KEGG pathways according to thermal stability. Pathways have been mapped to the 3 clusters defined in the main text.

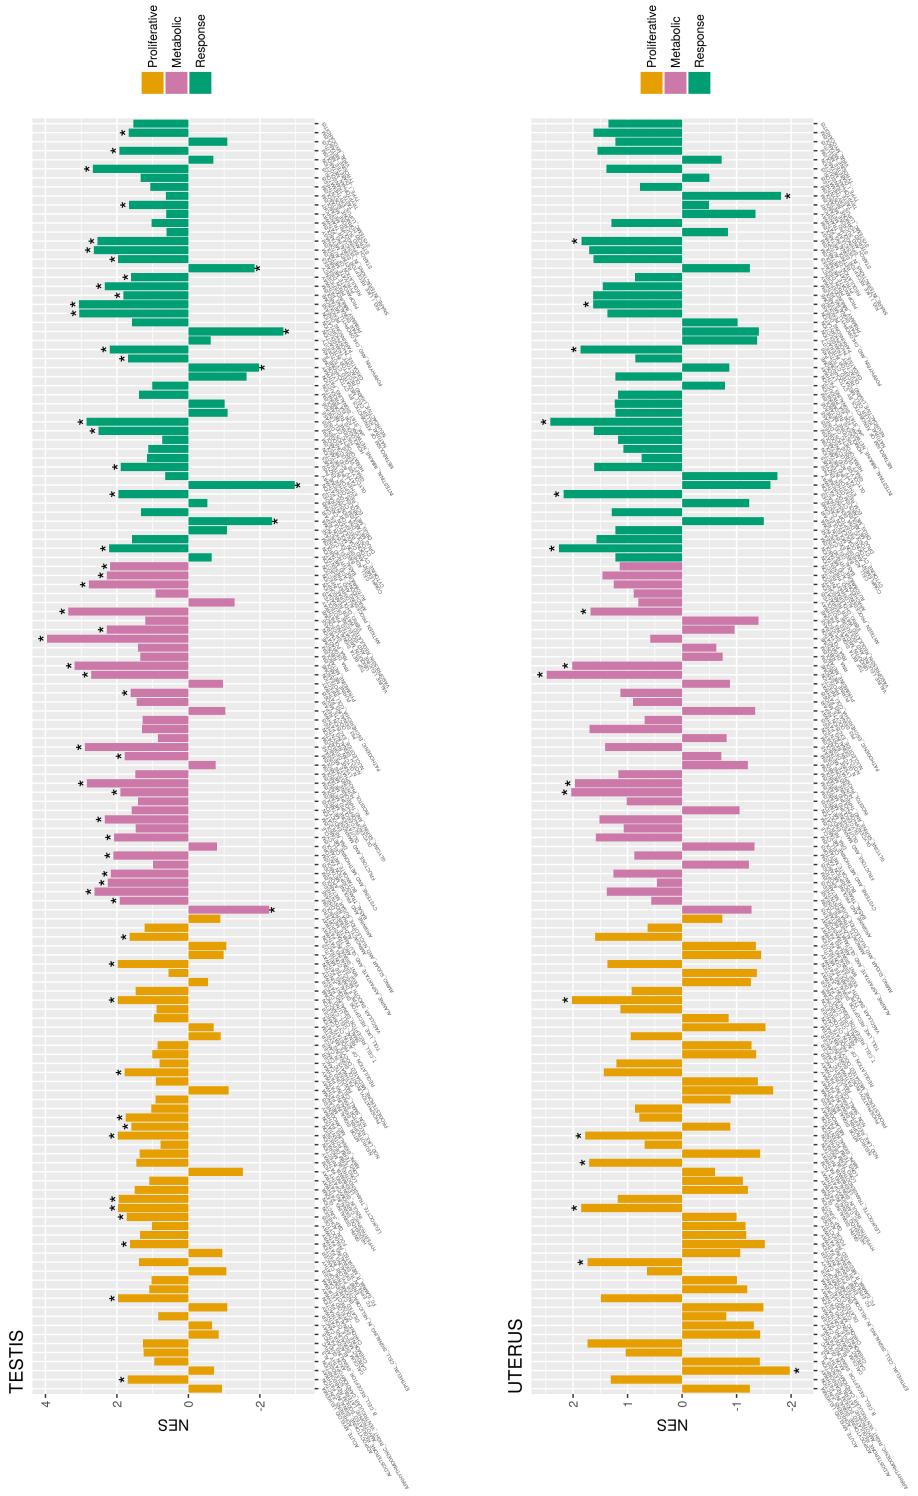

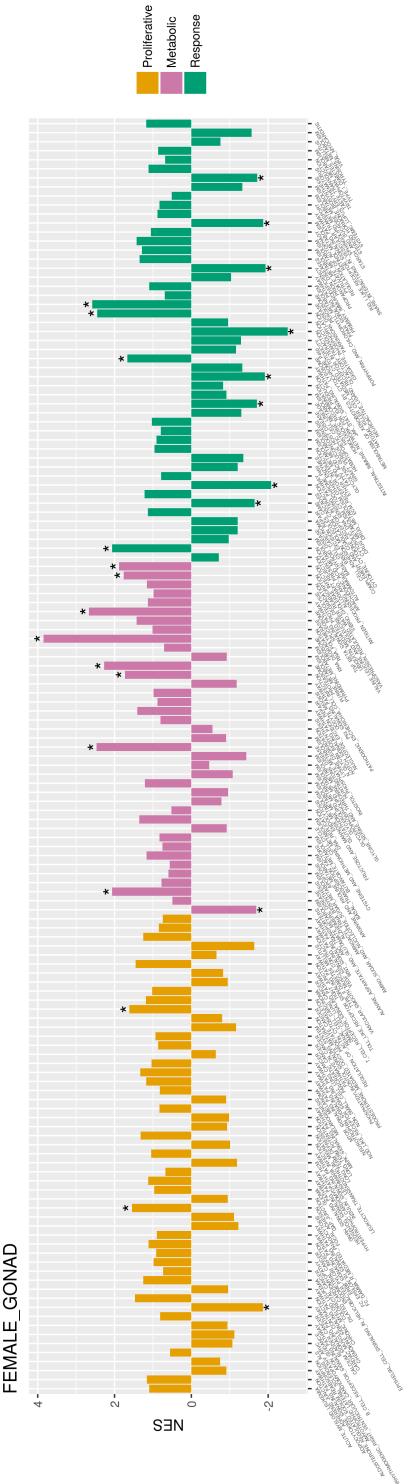

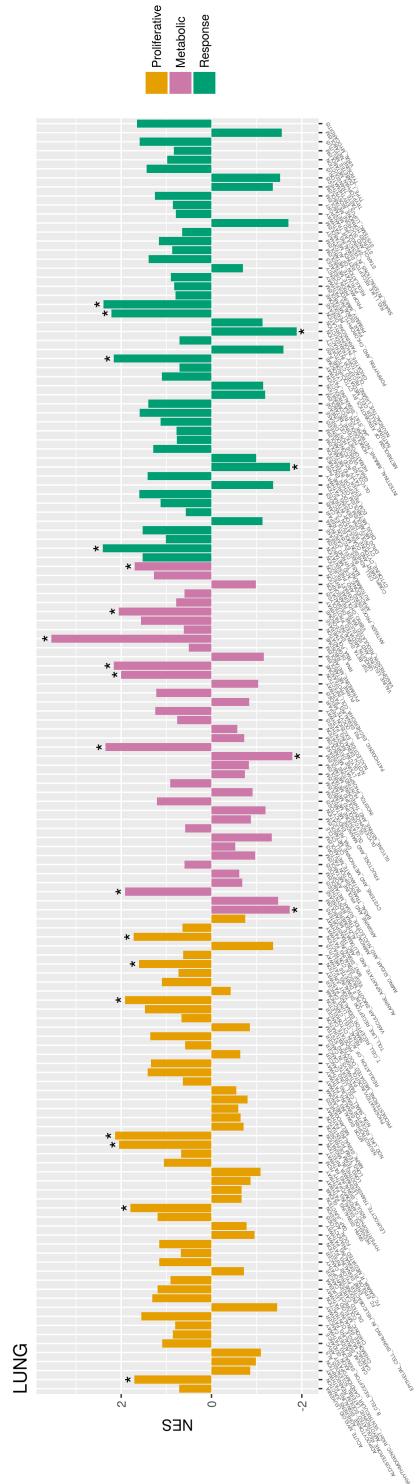

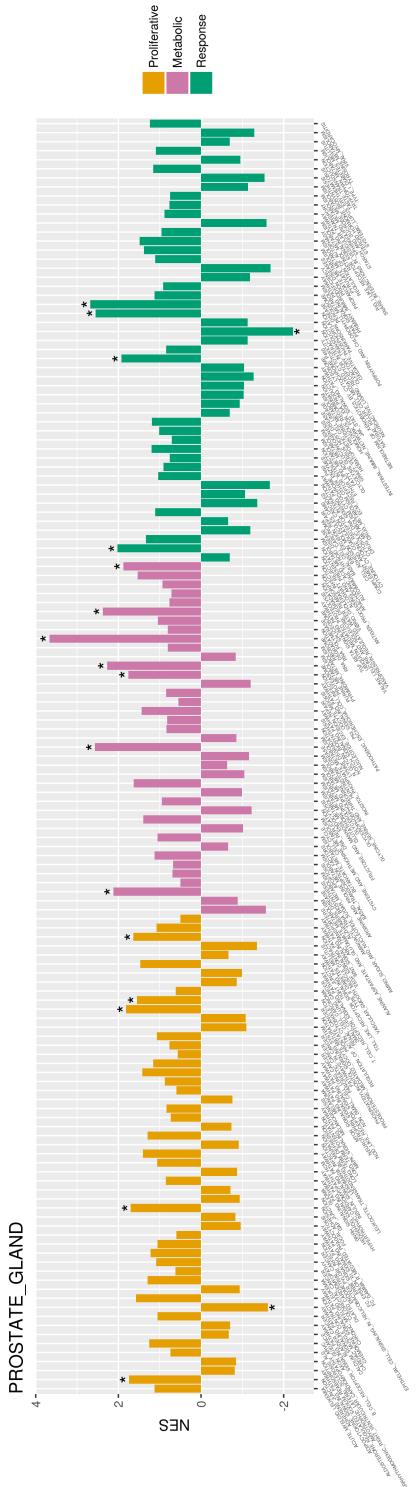

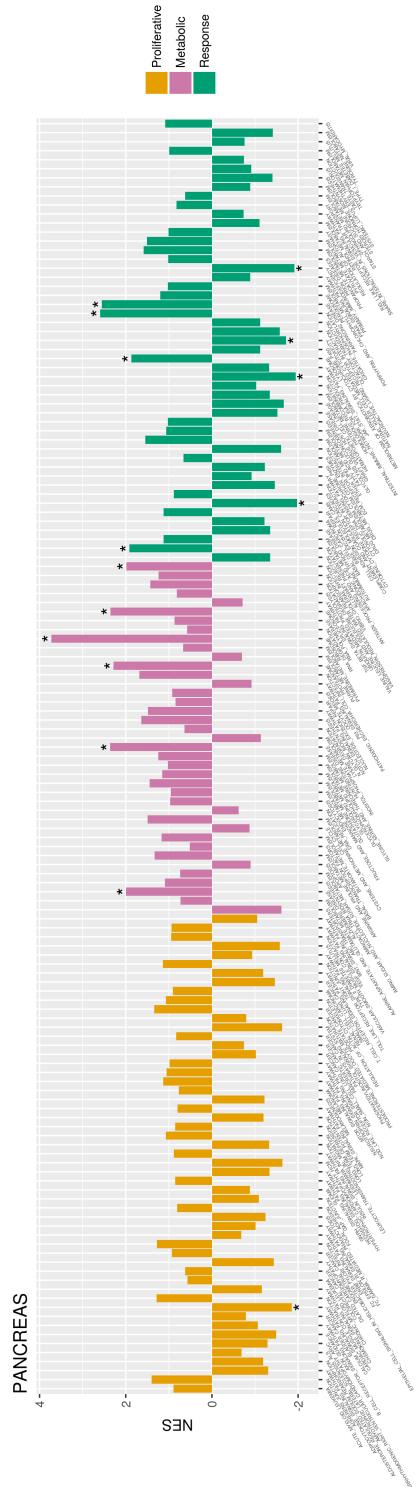

Figure 2: The functional enrichment of proteins in KEGG pathways according to protein abundance. Pathways have been mapped to the 3 clusters defined in the main text.

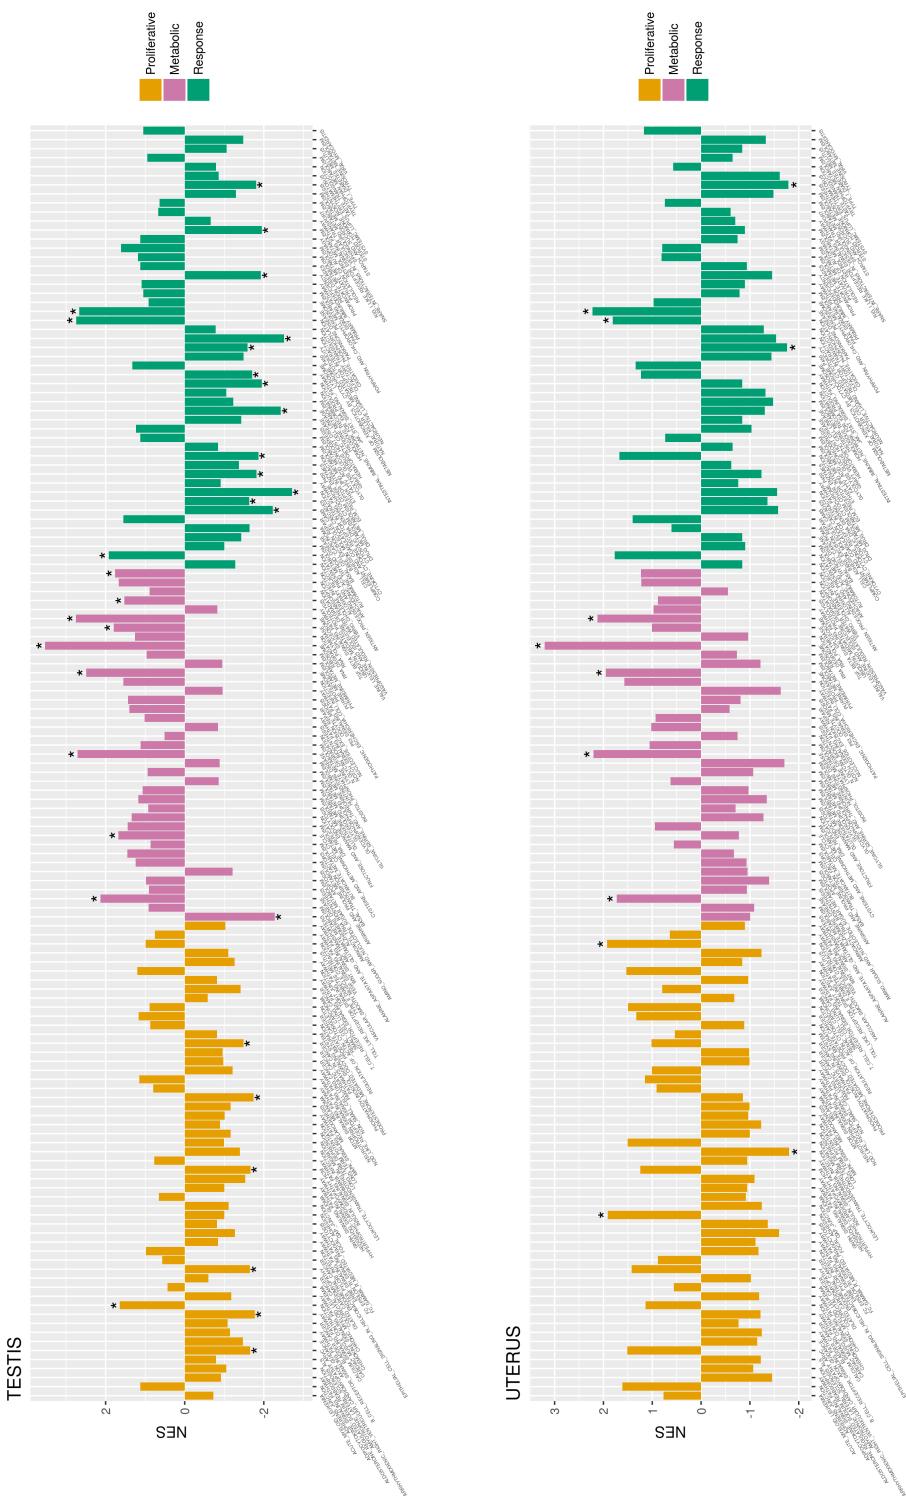

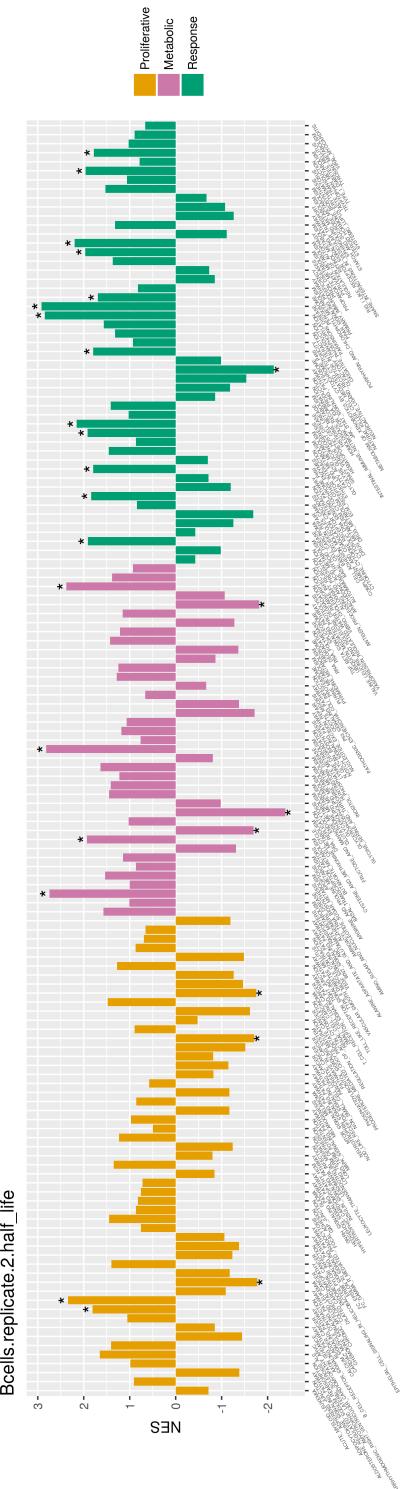

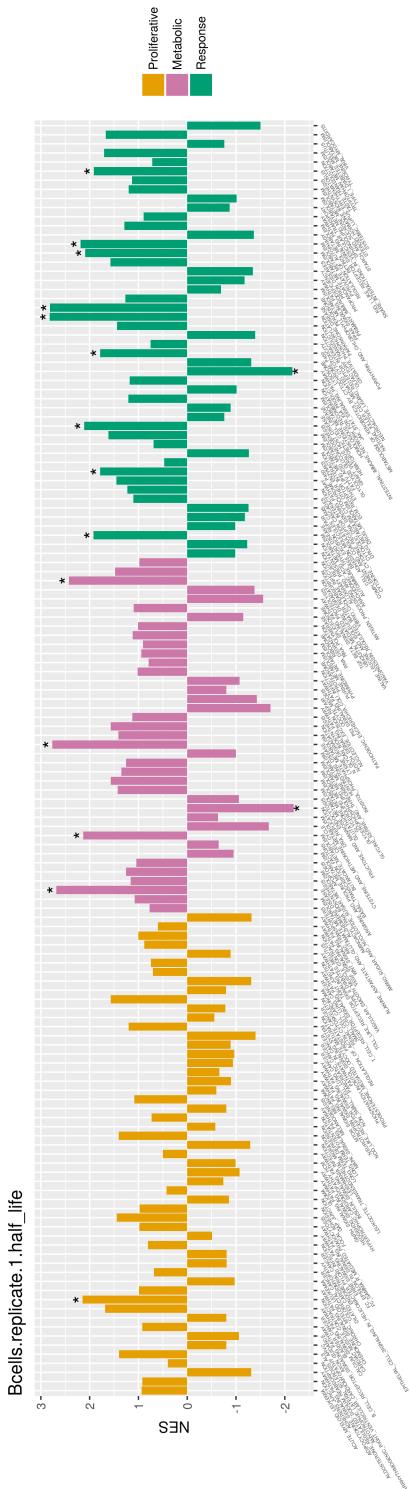

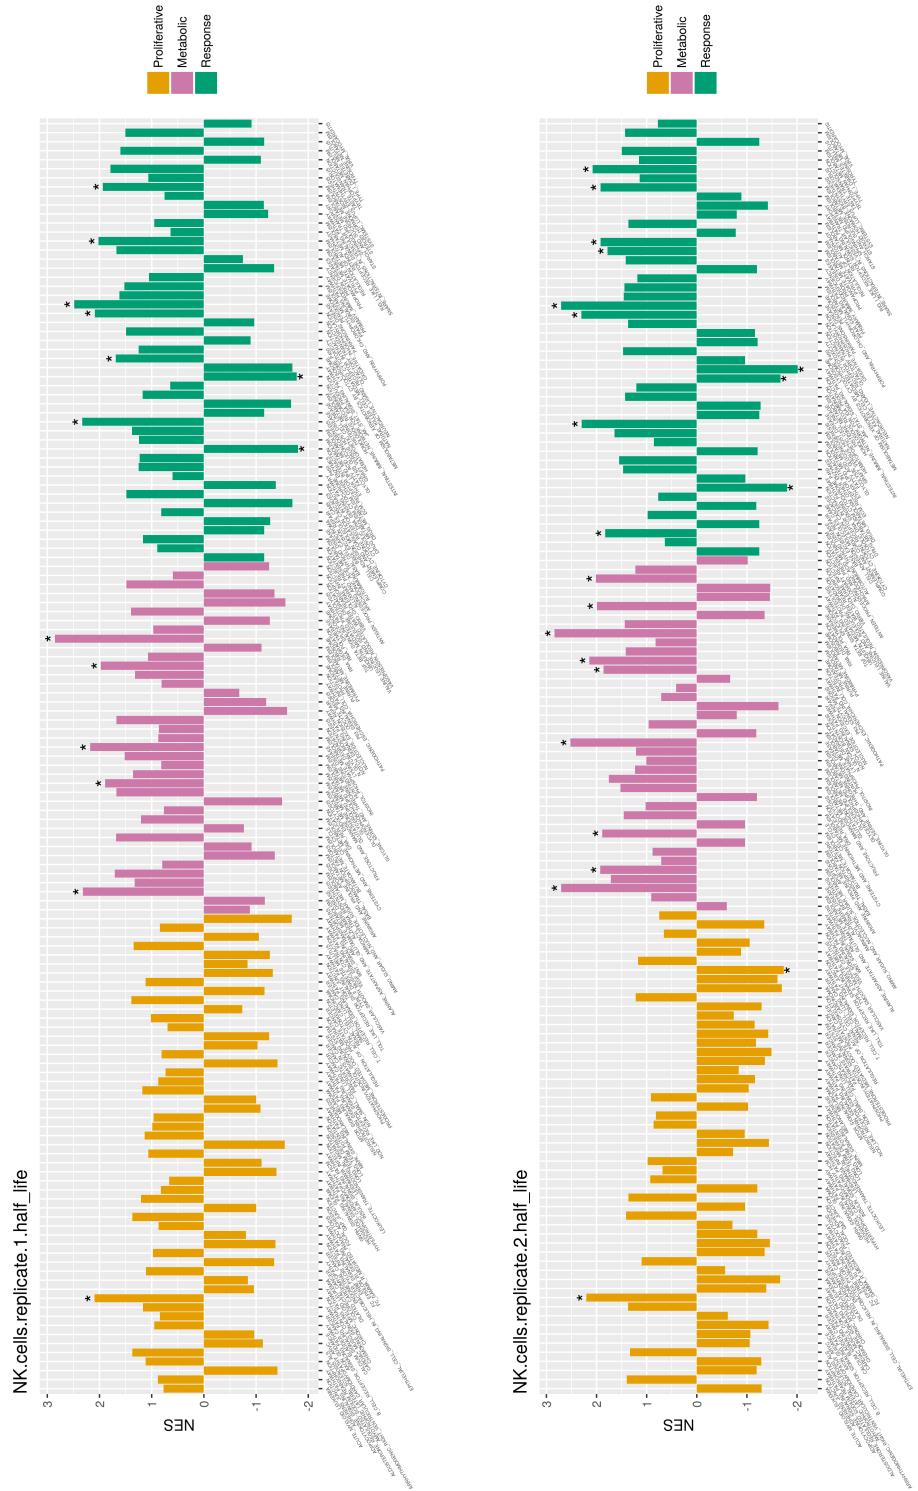

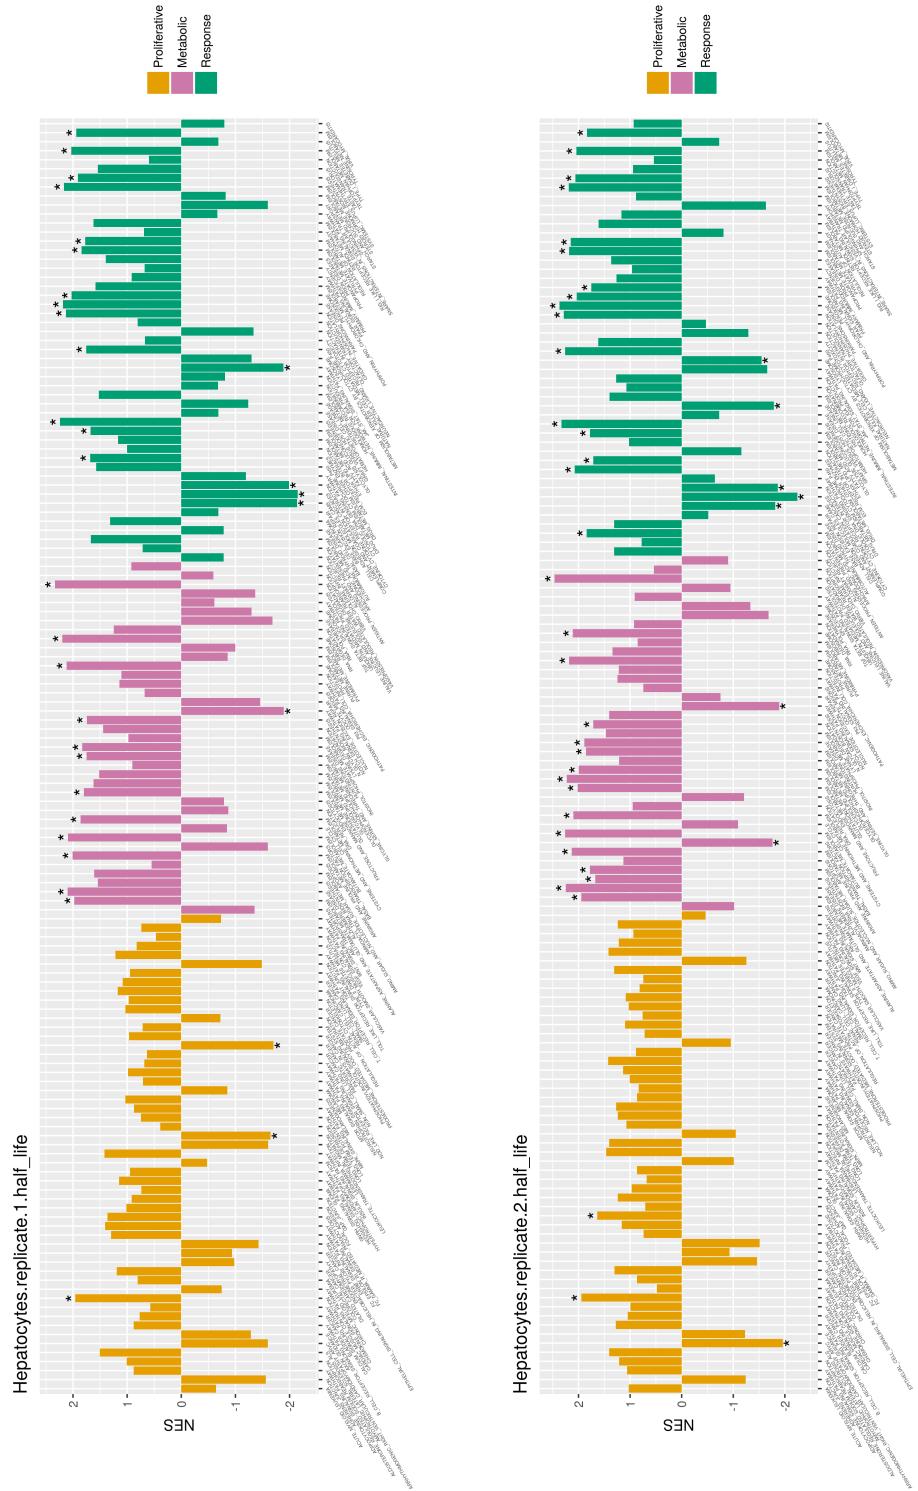

Figure 3: The functional enrichment of proteins in KEGG pathways according to transcript expression. Pathways have been mapped to the 3 clusters defined in the main text.

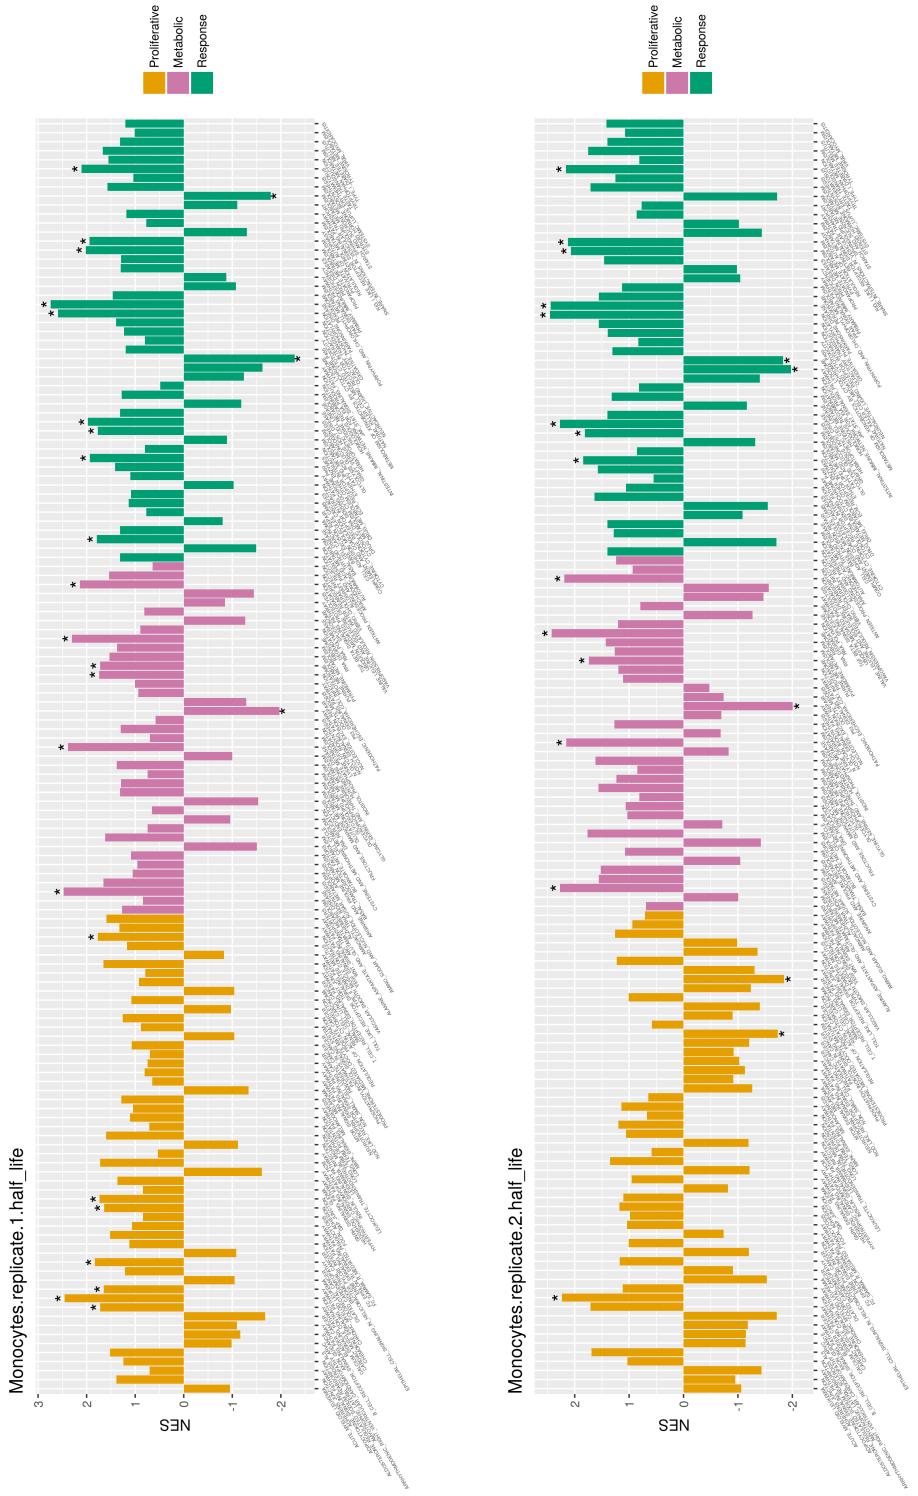

Figure 4: The functional enrichment of proteins in KEGG pathways according to protein half life. Pathways have been mapped to the 3 clusters defined in the main text.
